Mr. Adam Lundin, Josemaria Resources' Chief Executive Officer, stated: "It has been a very exciting year for Josemaria with the recent completion of the Feasibility Study which indicates that the Josemaria Project is one of the very few readily developable copper-gold projects in the world today. We remain focused on the submittal of the Environmental and Social Impact Assessment and commencement of the permitting process in the first quarter of 2021. We wish to thank Jack for his contributions to the Company during his Board tenure and look forward to his ongoing support as we work towards the development of the Josemaria Copper-Gold Project in San Juan Province, Argentina. Jack's experience in mine development projects in South America, including his involvement with the successful construction and commissioning of Lundin Gold's Fruta del Norte Gold Mine in Southern Ecuador, will continue to add value in his new Board advisory role."
